CALL FOR PAPERS

The **GITW** is a global inter-university workshop on the latest ICT advances, offering students the chance to present achievements and engage with universities worldwide. It also facilitates academic exchange among faculty and promotes international research collaboration.

ASPIRE Session: The ASPIRE Project, supported by the Japan Science and Technology Agency (JST) is a pioneering governmental research program that aims to promote international collaboration between the universities.

Topics of Interest

The GITW2024 will address challenges with realizing ICT over various sectors including technology and applications. We cordially invite original contributions in, but not limited to, the following areas:

- Communications Software and Multimedia
- IoT and Sensor Networks
- Mobile & Wireless Networks
- Optical Networks & Systems
- Wireless Communications
- Machine Learning and AI
- Vehicular Cooperation and Control
- Assisted and Autonomous Driving
- Satellite, Airborne and Maritime Mobile Systems

- Next generation networking and future internet
- Computer Vision / Video and Image Recognition
- e-Health
- Big Data
- Quantum Communications
- Natural Language Processing
- Information security and privacy
- Image/Network Processing etc.
- Digital Contents

Important Dates

Abstract Submission: **November 29, 2024**

Presentation slides submission: **December 10, 2024**

Co-Organizers:

Organizer:

ASPIRE Universities:

Participant Universities:

Beijing University of Technology
Institut Teknologi Sepuluh Nopember
Institut Teknologi Bandung

Peking University
Shanghai Jiao Tong University
Thammasat University

University Malaysia Sabah
Zhejiang University
Mawlana Bhashani Science and Technology University
